

## New Park City ski options

**Skiers** visiting Park City, Utah have two new accommodation options for this winter's season.

The Dakota Mountain Lodge, located in The Canyons Resort area, is a new, luxury 175-room resort. As part of The Waldorf Astoria Collection Dakota Mountain Lodge has many distinguishing features which include the new Frostwood Gondola offering ski-in/ski-out convenience, a 16,000 square foot Golden Door Spa, and the award-winning Spruce restaurant and lounge, sister restaurant to Spruce, located in San Francisco.

In addition, Escala Lodges have been added at the resort offering all-suite accommodation located mountainside in the Resort Village of Utah's largest ski resort. Representing a high standard of luxury, this exclusive retreat is reminiscent of the Grand European lodges from a bygone era with its native mountain stonework and timber frame construction but also features a luxury ski lounge with ski valet services and a year-round heated outdoor pool and large hot tubs.
